

# TPW PALLET TRUCK SCALES > LOGISTICS WEIGHING

**DINI ARGEO**

Scales - Weighing systems

# TPW pallet truck scales

Main available models:

CE-M approvable  
(OIML R-76/EN 45501)

TPWN08

TPWL08

TPWA

## Main advantages:

### Useful

- To weigh quickly, directly where it is necessary, reducing time, repeated loading and unloading manoeuvres, and possible errors.

### Simple

- It is used as a classic pallet truck allowing to weigh with accuracy, print, and transmit all the necessary information.

### Practical

- The weight indication is clear, easily readable, and the keys are large and intuitive.

### Precise

- Weighs with a sensitivity of 100g and with a precision of +/- 0.05% of the applied load.

### Sturdy

- It is able to lift and weigh up to 2000/2500kg.
- Structure in standardised steel for EUROPALLETS.
- Electronic parts well protected from knocks, rain, water sprays or dust.
